

IEP (Information Exchange Platform)

Pia Vikman-Roslin
3.6.2009 Focal Point-tapaaminen

IEP on järjestelmä, jonka avulla jäsenmaat ja EFSA vaihtavat riskinarviointeja koskevia tietoja

- alkavat, käynnissä olevat ja päättyneet riskinarvioinnit
- jäsenmaiden strategiset ja vuosittaiset työsuunnitelmat
- riskinarviointiin liittyvät tieteelliset tapahtumat
- linkit jäsenmaiden kansallisiin riskinarviointia käsitteleviin sivustoihin
- ei luottamuksellista aineistoa eikä tieteellisissä lehdissä julkaistuja artikkeleita (copyright)

IEP Announcement

Welcome to the IEP
The Information Exchange Platform provides a platform for Advisory Forum, Focal Point Members and EFSA to facilitate the exchange of risk assessment outputs undertaken by the official bodies in the different Member States.

The different sections are:

1. Risk Assessment Outputs (Opinion, Statement, Guidance Document, Technical report, Risk assessment mandate)
2. Work Plans by Country (Annual, Strategic)
3. Country Specific Information (Country Profiles, Quality Manual, Crisis Manual)

Document type: Opinion

Title: Opinion of the French Food Safety Agency (AFSSA) regarding the risk assessment of Para red, a colouring agent in paprika powder

Author(s): AFSSA

Publication date: 13-05-2005

Contact details: Martin Hirsch (AFSSA) - m.hirsch@afssa.fr

Country uploading: France

English summary: Afssa was urgently tasked (26/4/2005) to deliver an opinion on Para Red in paprika powder. Considering that: (i) this colouring agent is not authorized by the decree of 2/10/1997; (ii) there are no available toxicological data for this agent but the positive Ames test; (iii) Para Red is chemically similar to Sudan I, the latter being considered carcinogenic; (iv) paprika powders show Para Red contents of 13 mg/kg; (v) other countries (UK, Spain, Ireland) show the presence of Para Red in many ready prepared dishes seasoned with Paprika powder. Afssa recommends taking appropriate management measures allowing the consumers not to be exposed. This includes the search for Para Red in ready prepared dishes seasoned with Paprika Powder.

Keywords: Para red, colouring agent, colouring, paprika, paprika powder

Original language of document: French
